"This is the book all elementary school counselors have been waiting for! It provides easy to follow step-by-step methods and reproducible templates to develop and manage the delivery of effective core curriculum and school-wide activities. Not only can this book be used a guide to deepen our skills as educators and collaborators, but it also provides a sounding board for effective school counseling practices that are standards-based, measurable, and focused on closing the achievement gap. This is a must read for school counselors seeking to develop or improve their tier one programs or simply seeking to spend more time delivering direct services to students!"

Hatching Results for Elementary School Counseling: Implementing Core Curriculum and Other Tier 1 Activities

"Elementary school counselors can feel isolated and alone without a team. We are often pulled in multiple directions while trying to make an impact on our students and our school communities. Trish, Danielle, and Lisa have provided us with that team by sharing their stories, expertise, and practical suggestions in this book. Never feel alone again with this resource on your shelf! It is great for veteran AND rookie school counselors."

*"The strengths of this book include the ability of the authors to show, instead of just tell, the reader important concepts and activities. Readers are provided with practical steps to creating foundational core curriculum to remove barriers to success for all students. Practicing school counselors and school counselors in-training will benefit from the step-by-step guide to building lesson plans, the multiple strategies to increase student engagement, and the clear blueprint for effective classroom management. The informal and easy-to-read writing style makes this an accessible text for students at the graduate level as well as existing school counselors. Finally, school counseling, as a profession, can improve in our ability to evaluate the impact of our work and share-out results of our interventions. **Hatching Results for Elementary School Counseling** provides users with a system for sharing out important results related to student growth and development."*
